LINE

SKILLS

Programming
R, Python, Angular/Typescript, SQL, C++,
Google Cloud Platform

Design
Computational Modeling (FEA), AutoDesk
Fusion, OpenCV (computer vision)

Mathematics
Calculus, Differential Equations, Linear
Algebra, Statistics/Probability

"I've failed over and over and over again in my life. And that is why I succeed."
- Michael Jordan

TEACHING EXPERIENCE

ESL Teacher

Chungdahm School - Dongtan, South Korea

Full-time ESL instruction, including classroom teaching, lesson delivery, student assessment, and academic support.

August 2019 - August 2020

ESL Teacher

Boomily - Sanbon, South Korea

Full-time ESL teaching focused on English-language instruction, classroom management, student assessment, and academic support.

August 2020 - August 2021

Graduate Teaching Assistant

University of Memphis

Led engineering labs while completing an M.Sc. in Mechanical Engineering. Taught differential equations in mechanical, thermal, and electronic applications.

June 2017 - May 2018

ENGINEERING EXPERIENCE

Engineer/Developer

RTL Software LLC (Self-Employed)

Project-based work spanning workflow automation, mobile app data processing, full-stack SaaS development, data analysis, and engineering-oriented computational work.

August 2019 - Present

Full-Stack Web Developer

WorkOnReferrals - San Francisco (Full-time, Remote)

Full-stack web development for a production web application, including frontend and backend features, APIs, databases, debugging, maintenance, and deployment.

August 2022 - October 2025

Software Developer

ViewGlass

Developed full-stack manufacturing-line applications in a .NET environment using RESTful APIs and Angular 2/Bootstrap.

May 2018 - August 2018

Research Assistant

Los Alamos National Laboratory

Assisted in magnetic mapping of UCNtau to analyze possible systematic effects in measurement of the free-neutron half-life.

June 2016 - August 2016

Research Assistant

Los Alamos National Laboratory

Developed precise 3-D object tracking software using C++ and OpenCV for an experimental apparatus.

June 2015 - August 2015

Research Assistant

Oak Ridge National Laboratory

Assisted in construction of a Fast Ionization Chamber for Gammasphere and ORRUBA nuclear detectors; developed predictive R-process simulations using ROOT.

June 2014 - August 2014

M.Sc. in Mechanical Engineering

University of Memphis

Thesis research in acoustic-emission non-destructive testing; data analysis in R and supervised neural networks. Peer-reviewed publication.

June 2017 - May 2019

B.Sc. in Physics

Tennessee Technological University

August 2012 - May 2017
